How to add your company profile

Find your technology

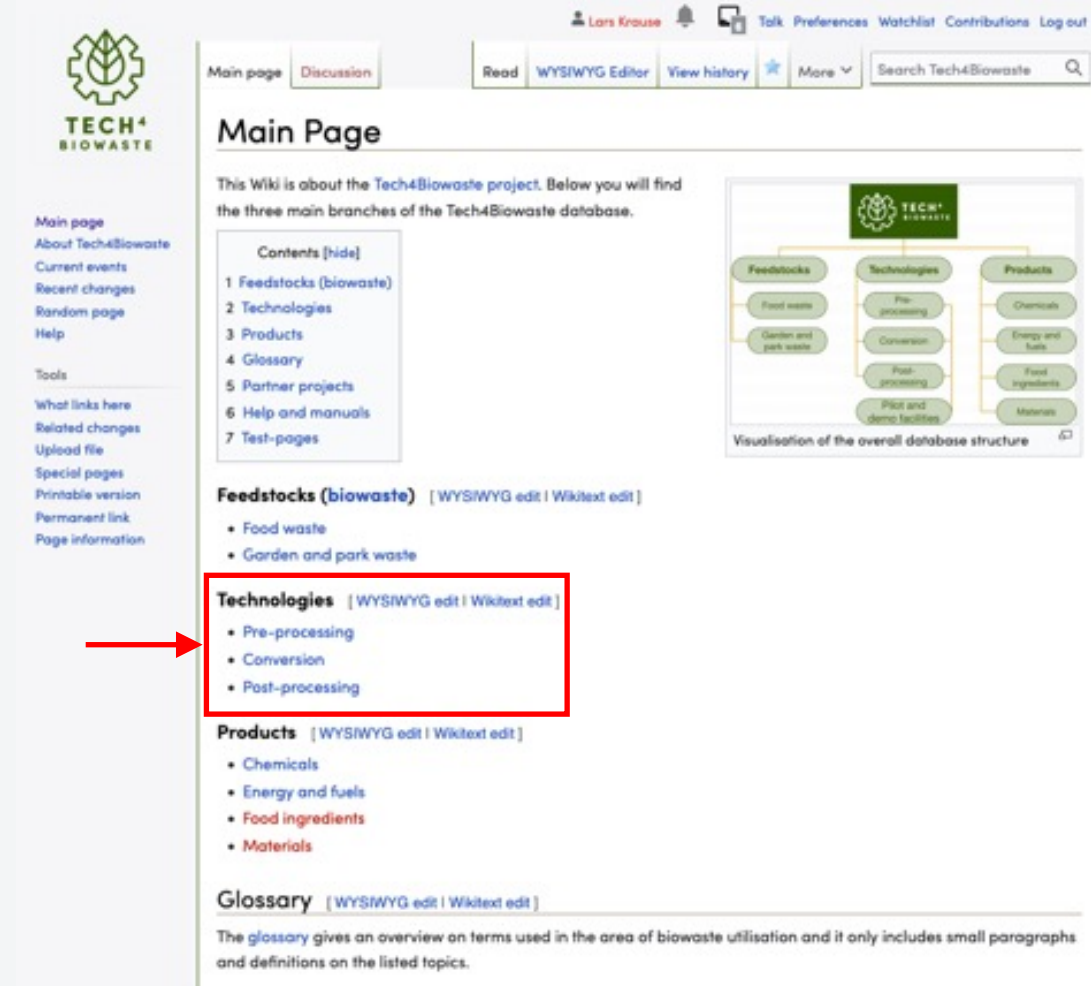

How to add your company profile

Find your Technology

From the **Main Page** you can find the three main categories for all available technologies. Select one category to obtain a list of available technologies.

Technologies

- Pre-processing
- Conversion
- Post-Processing

The screenshot shows the Tech4Biowaste Main Page. On the left is a sidebar with navigation links. The main content area has a 'Main Page' header and a description. Below this is a 'Contents' list. A red arrow points to the 'Technologies' section, which is highlighted with a red box. To the right of the 'Technologies' list is a hierarchical diagram of the database structure. At the bottom are sections for 'Feedstocks (biowaste)', 'Products', and 'Glossary'.

Main Page

This Wiki is about the Tech4Biowaste project. Below you will find the three main branches of the Tech4Biowaste database.

Contents [hide]

- 1 Feedstocks (biowaste)
- 2 Technologies
- 3 Products
- 4 Glossary
- 5 Partner projects
- 6 Help and manuals
- 7 Test-pages

Technologies [WYSIWYG edit | Wikitext edit]

- Pre-processing
- Conversion
- Post-processing

Feedstocks (biowaste) [WYSIWYG edit | Wikitext edit]

- Food waste
- Garden and park waste

Products [WYSIWYG edit | Wikitext edit]

- Chemicals
- Energy and fuels
- Food ingredients
- Materials

Glossary [WYSIWYG edit | Wikitext edit]

The glossary gives an overview on terms used in the area of biowaste utilisation and it only includes small paragraphs and definitions on the listed topics.

How to add your company profile

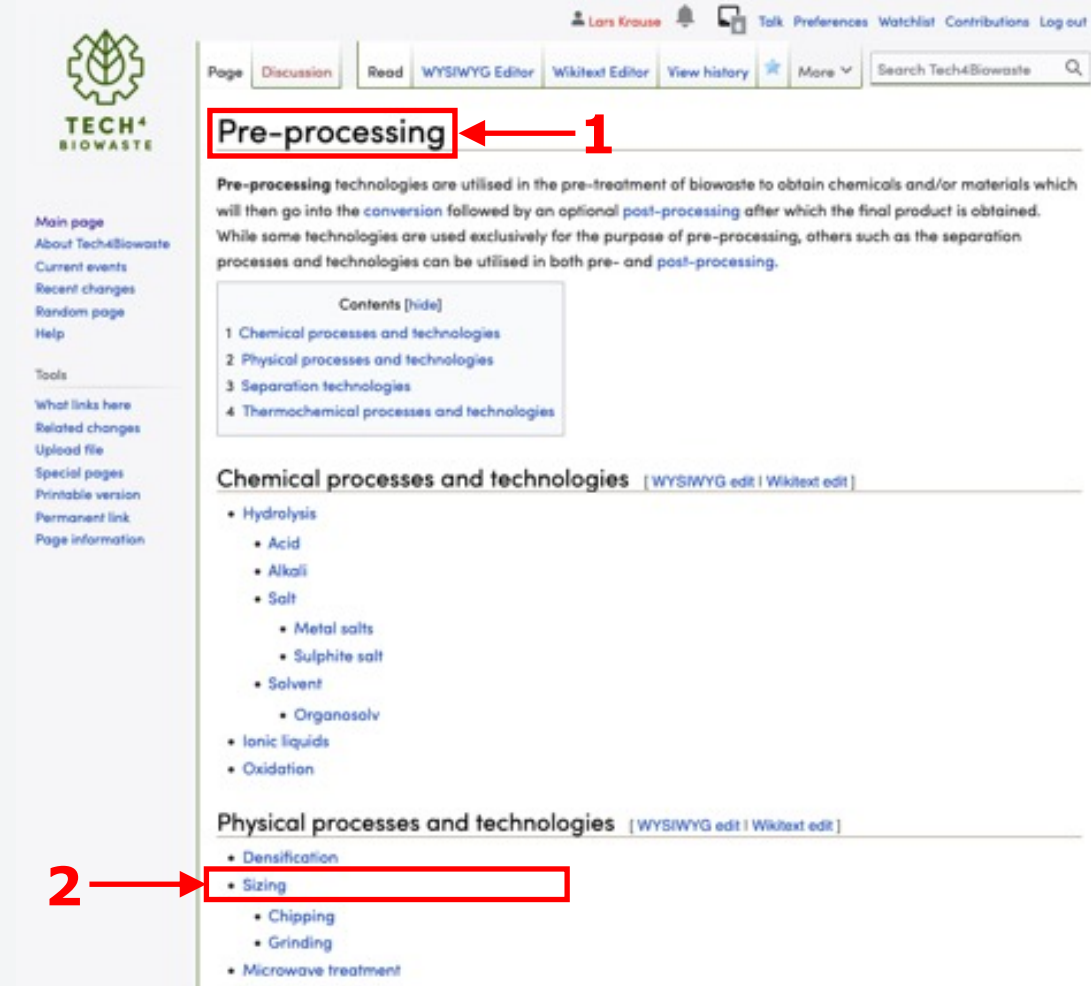

Find your Technology

Example: Pre-processing

Once you found the right **(1) category** (in this example Pre-processing) you will see a list of all available technologies alphabetically sorted and further categorised based on their basic working principles.

Example: Sizing

Once you found your **(2) technology** (in this example Sizing) you can directly click on it to be forwarded to the corresponding article.

The screenshot shows the Tech4Biowaste database interface. On the left is a sidebar with the Tech4Biowaste logo and navigation links. The main content area displays the 'Pre-processing' category, which is highlighted with a red box and a red arrow labeled '1'. Below this, a list of technologies is shown, including 'Sizing', which is highlighted with a red box and a red arrow labeled '2'. The 'Sizing' technology is further categorized into 'Chipping', 'Grinding', and 'Microwave treatment'.

Page [Discussion](#) [Read](#) [WYSIWYG Editor](#) [Wikitext Editor](#) [View history](#) [More](#)

Pre-processing

Pre-processing technologies are utilised in the pre-treatment of biowaste to obtain chemicals and/or materials which will then go into the conversion followed by an optional post-processing after which the final product is obtained. While some technologies are used exclusively for the purpose of pre-processing, others such as the separation processes and technologies can be utilised in both pre- and post-processing.

Contents [hide]

- 1 Chemical processes and technologies
- 2 Physical processes and technologies
- 3 Separation technologies
- 4 Thermochemical processes and technologies

Chemical processes and technologies

- Hydrolysis
 - Acid
 - Alkali
 - Salt
 - Metal salts
 - Sulphite salt
 - Solvent
 - Organosolv
- Ionic liquids
- Oxidation

Physical processes and technologies

- **Sizing**
 - Chipping
 - Grinding
 - Microwave treatment

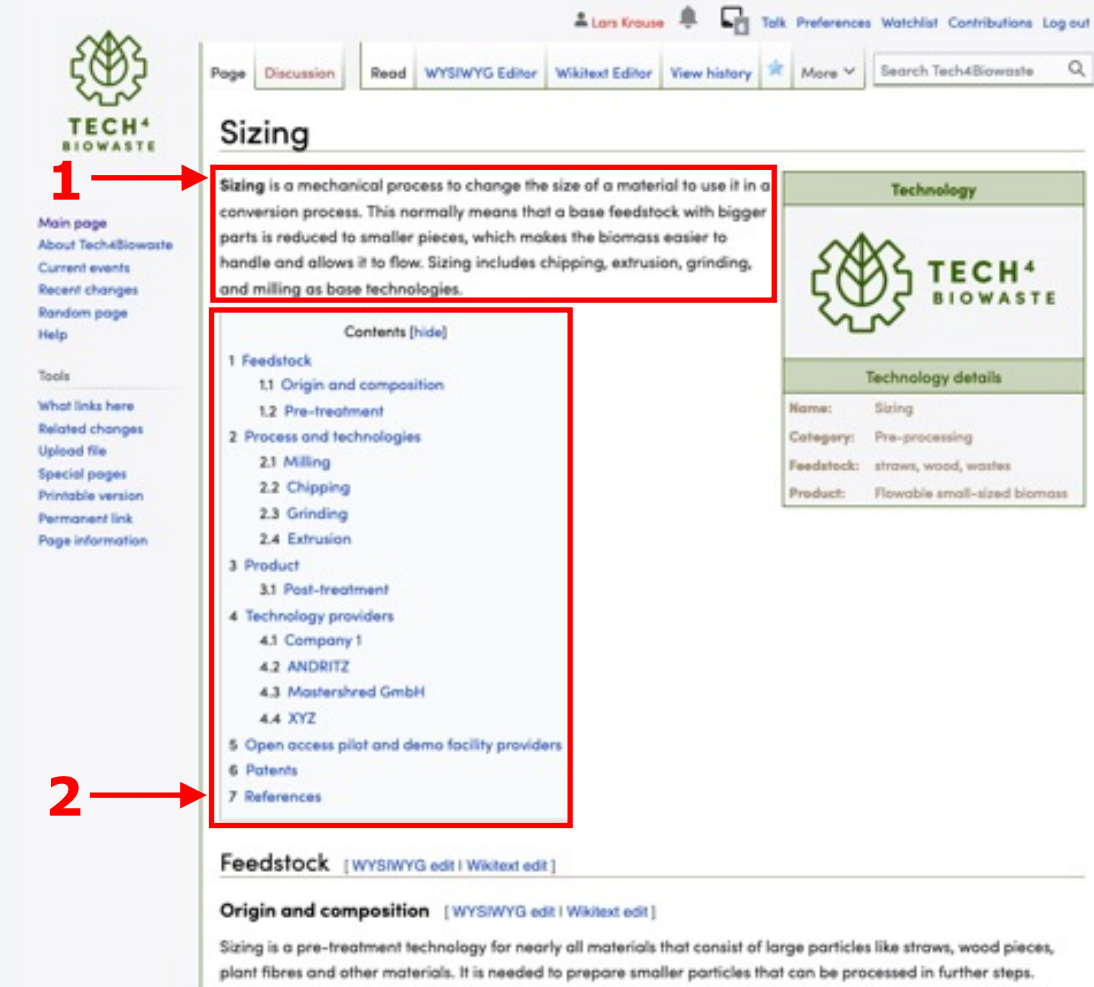

How to add your company profile

Find your Technology

Example: Sizing

Each technology article has the same basic structure starting with **(1) an short description** and **(2) a table of content**.

An [Example-page](#) within the wiki explains the article structure and content in more detail.

The screenshot shows the Tech4Biowaste wiki page for the 'Sizing' technology. The page is structured as follows:

- Page Header:** Includes the Tech4Biowaste logo, user name 'Lars Krause', and navigation links like 'Talk', 'Preferences', 'Watchlist', 'Contributions', and 'Log out'.
- Page Content:**
 - Sizing:** A short description of the sizing process: 'Sizing is a mechanical process to change the size of a material to use it in a conversion process. This normally means that a base feedstock with bigger parts is reduced to smaller pieces, which makes the biomass easier to handle and allows it to flow. Sizing includes chipping, extrusion, grinding, and milling as base technologies.'
 - Contents [hide]:** A table of contents listing the sections of the article:
 - 1 Feedstock
 - 1.1 Origin and composition
 - 1.2 Pre-treatment
 - 2 Process and technologies
 - 2.1 Milling
 - 2.2 Chipping
 - 2.3 Grinding
 - 2.4 Extrusion
 - 3 Product
 - 3.1 Post-treatment
 - 4 Technology providers
 - 4.1 Company 1
 - 4.2 ANDRITZ
 - 4.3 Mastershred GmbH
 - 4.4 XYZ
 - 5 Open access pilot and demo facility providers
 - 6 Patents
 - 7 References
 - Feedstock:** A section titled 'Feedstock' with a link to 'WYSIWYG edit' and 'Wikitext edit'.
 - Origin and composition:** A section titled 'Origin and composition' with a link to 'WYSIWYG edit' and 'Wikitext edit'. The text describes sizing as a pre-treatment technology for nearly all materials that consist of large particles like straws, wood pieces, plant fibres and other materials. It is needed to prepare smaller particles that can be processed in further steps.
- Technology Details:** A table on the right side of the page providing details about the technology:

Technology	
	
Technology details	
Name:	Sizing
Category:	Pre-processing
Feedstock:	straws, wood, wastes
Product:	Flowable small-sized biomass

How to add your company profile

Add your company profile

Enter title (company name)

Each company-profile starts with a title only including your company name.

This can be implemented via the toolbox at the top
Click on **(1) Paragraph** → **(2) Sub-heading 1**

(3) Write your company name and hit enter.

How to add your company profile

Add your company profile

The technology provider infobox

The company profile starts with an technology provider infobox that includes datafields to be filled with obligatory information.

The infoboxes are tailored for each technology, correspondingly templates are prepared for each technology.

A full list of all available templates and their naming can be found under the [Help-page](#).

[Technology name] provider			
General information			
Company:	[Company name]		
Country:	[Country HQ location]		
Contact:	[e-mail address]		
Webpage:	[URL]		
Technology and process details			
Technology name:	["Brand name"]	Technology category:	[Specified technology sub-category from chapter process and technologies]
TRL:	[4-9]	Capacity:	[numeric value] kg·h ⁻¹
Obligatory detail 1:	[Detail 1] [unit]	Obligatory detail 2:	[Detail 2] [unit]
Obligatory detail 3:	[Detail 3] [unit]	Other:	[Other information, free to choose]
Feedstock and product details			
Feedstock:	[more specified feedstocks, (if possible: link to feedstocks from biowaste , garden and park waste , and food waste)]		Product:
			[more specified products, (if possible: link to products)]

How to add your company profile

Add your company profile

Insert technology provider infobox

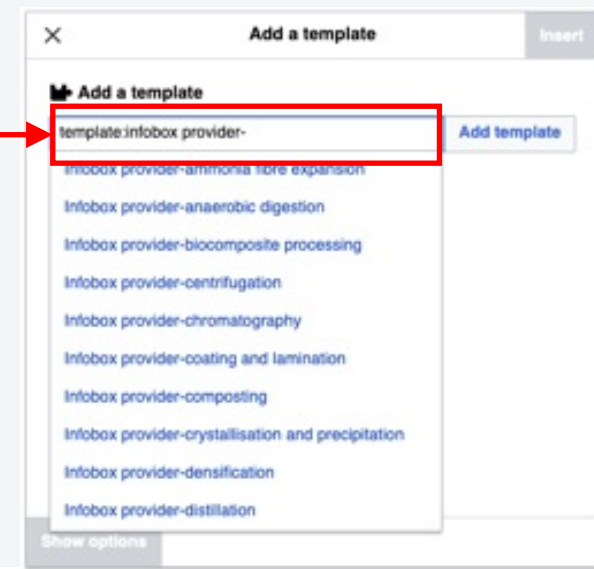

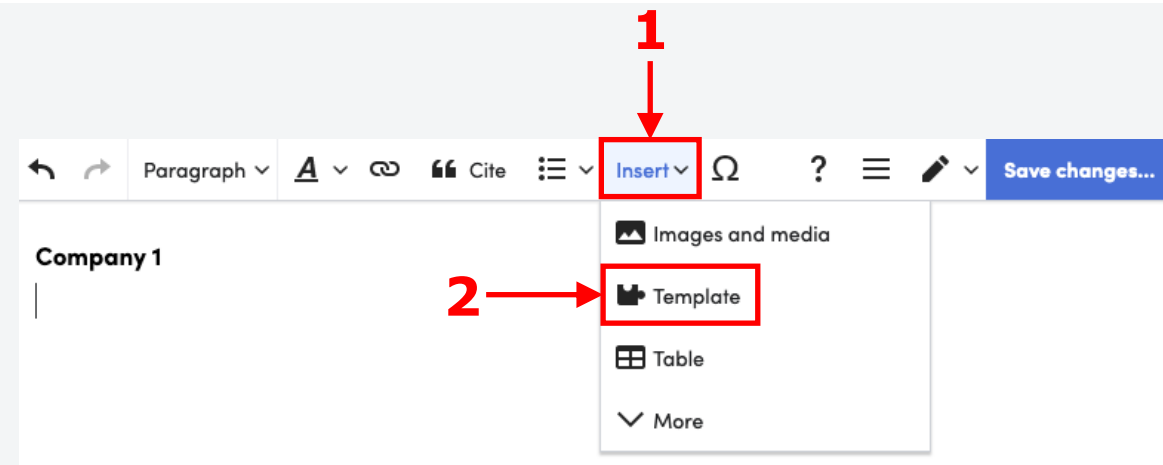

The technology provider infobox can be directly entered below the title (company name) via the toolbox by clicking on

(1) Insert → (2) Template

The “Add a template” dialogue box opens. In the search-field (3) type in the correct search-string for your technology beginning with:

template:infobox provider-

and directly followed by the technology name (which is mainly the article name, suggestions will be displayed below). A full list of all available templates and their naming can be found under the [Help-page](#).

How to add your company profile

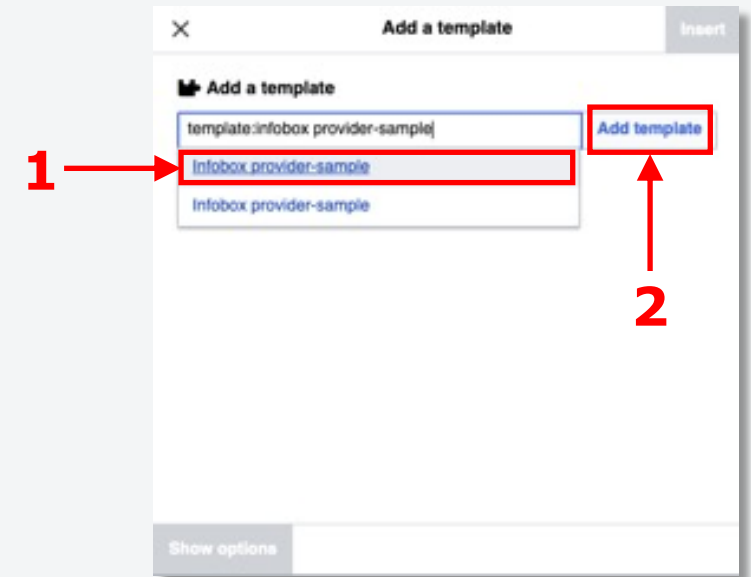

Add your company profile

Insert technology provider infobox

Once the correct search-string was entered
(in this example "template:infobox provider-sample")
you can click either on

(1) the suggested string below the search field

or on **(2) Add template** on the right side of the search field.

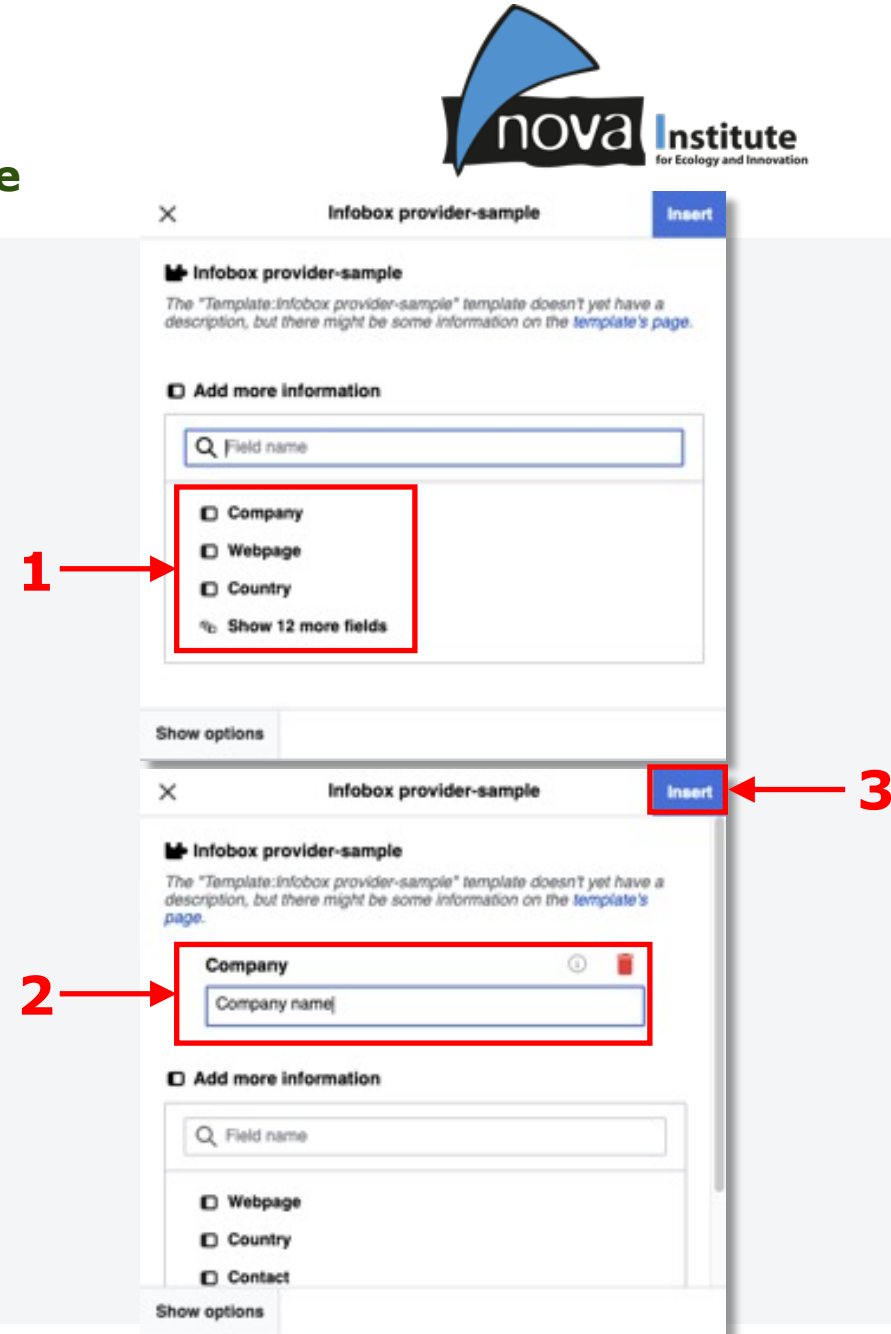

Add your company profile

Insert technology provider infobox

Now another dialogue-box opens which allows you to **access (1) all requested datafields**.

(2) Click on a datafield (in this example "Company") **and type in the requested information**.

Complete filling in all requested fields. After completion the infobox can be inserted by **clicking on (3) "Insert"**.

The image shows two sequential screenshots of a web application interface for adding a company profile. The top screenshot shows a dialog box titled 'Infobox provider-sample' with a search bar and a list of data fields: 'Company', 'Webpage', 'Country', and 'Show 12 more fields'. A red box highlights this list, and a red arrow labeled '1' points to it. The bottom screenshot shows the same dialog box, but the 'Company' field is now selected and expanded, showing a text input field with the placeholder 'Company name'. A red box highlights this input field, and a red arrow labeled '2' points to it. The 'Insert' button in the top right corner is highlighted with a red box and a red arrow labeled '3'.

Add your company profile

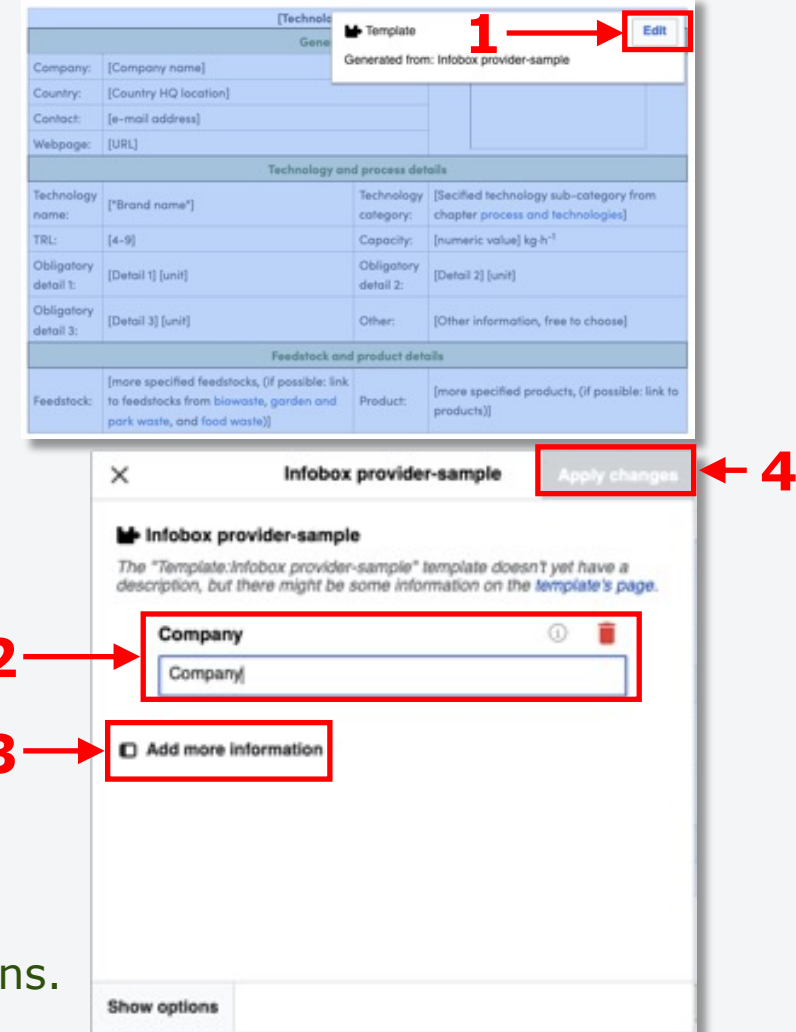

Insert technology provider infobox

If a value needs to be modified or if a datafield was not filled you can easily edit the infobox (presumption: visual editor (WYSIWYG) is activated) by clicking on the infobox followed by clicking on the appearing **(1) "Edit"-button** at the top right of the infobox.

(2) Already typed in datafields can be modified.

(3) Datafields which are still empty can be added under "Add more information".

(4) Click on "Apply changes" once you have completed your modifications.

The screenshot shows the 'Infobox provider-sample' form. At the top right, there is a red box around the 'Edit' button, with a red arrow labeled '1' pointing to it. Below the form, there is a red box around the 'Apply changes' button, with a red arrow labeled '4' pointing to it. In the 'Company' field, there is a red box around the text 'Company', with a red arrow labeled '2' pointing to it. Below the 'Company' field, there is a red box around the 'Add more information' button, with a red arrow labeled '3' pointing to it.

How to add your company profile

Add your company profile

Insert your company logo to the technology provider infobox

If you not upload and specify your company logo under the datafield “Image”, **(1) the infobox will display the Tech4Biowaste logo** instead.

If you want to upload your company logo you need to upload the corresponding image first and specify the used filename in the “Image” datafield of the infobox which is explained in the following pages.

[Technology name] provider			
General information			
Company:	[Company name]		
Country:	[Country HQ location]		
Contact:	[e-mail address]		
Webpage:	[URL]		
Technology and process details			
Technology name:	["Brand name"]	Technology category:	[Specified technology sub-category from chapter process and technologies]
TRL:	[4-9]	Capacity:	[numeric value] kg-h ⁻¹
Obligatory detail 1:	[Detail 1] [unit]	Obligatory detail 2:	[Detail 2] [unit]
Obligatory detail 3:	[Detail 3] [unit]	Other:	[Other information, free to choose]
Feedstock and product details			
Feedstock:	[more specified feedstocks, (if possible: link to feedstocks from biowaste , garden and park waste , and food waste)]		Product:
			[more specified products, (if possible: link to products)]

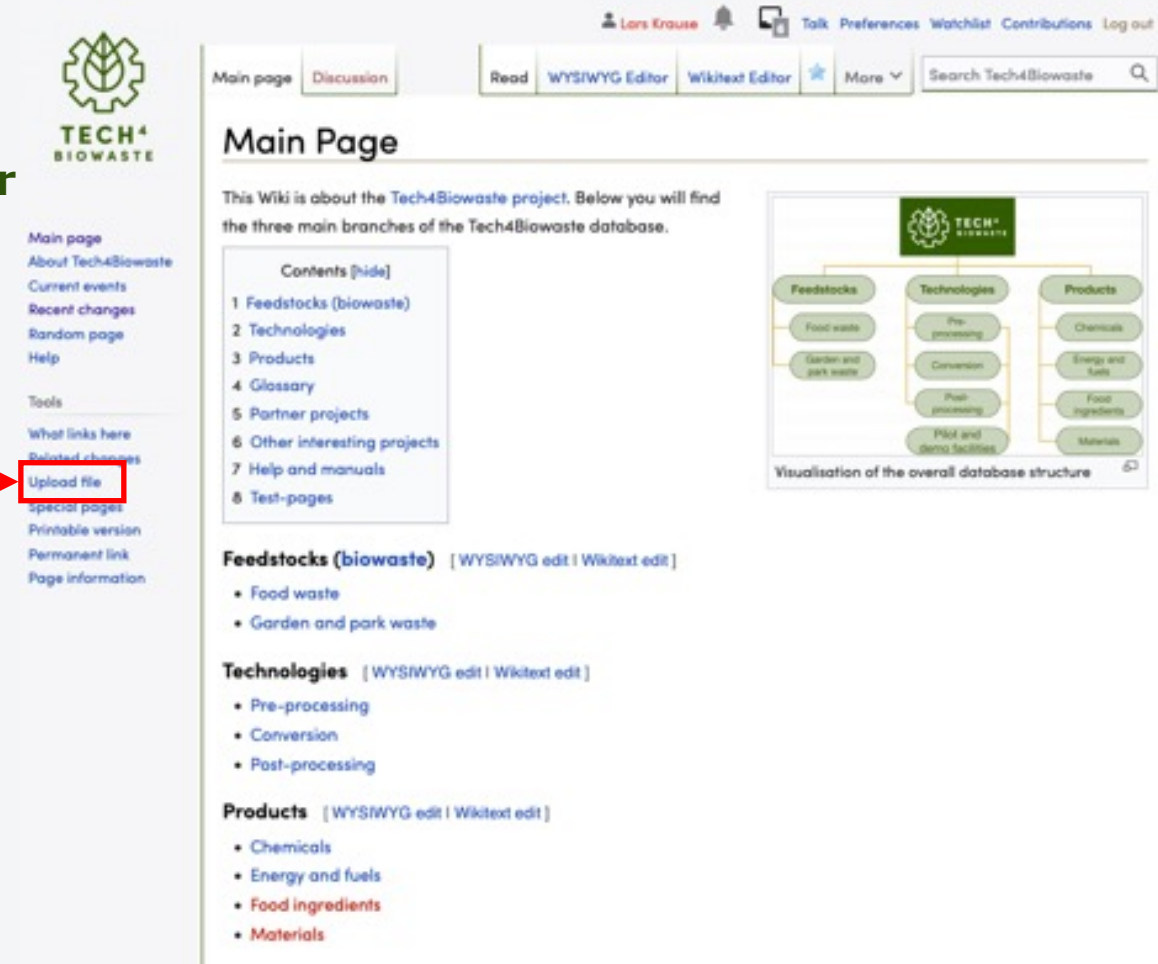

How to add your company profile

Add your company profile

Insert your company logo to the technology provider infobox

From the Main Page click on **(1) Upload file** which will direct you to the Upload Wizard.

1 → 

The screenshot shows the Tech4Biowaste Main Page. On the left sidebar, the 'Upload file' link is highlighted with a red box and a red arrow labeled '1'. The main content area includes a 'Contents' list, a 'Feedstocks (biowaste)' section with links to 'Food waste' and 'Garden and park waste', a 'Technologies' section with links to 'Pre-processing', 'Conversion', and 'Post-processing', and a 'Products' section with links to 'Chemicals', 'Energy and fuels', 'Food ingredients', and 'Materials'. A diagram on the right visualizes the overall database structure.

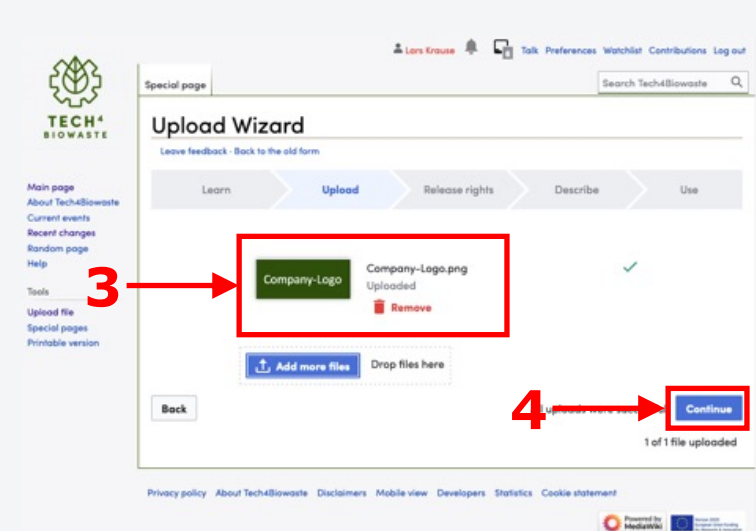

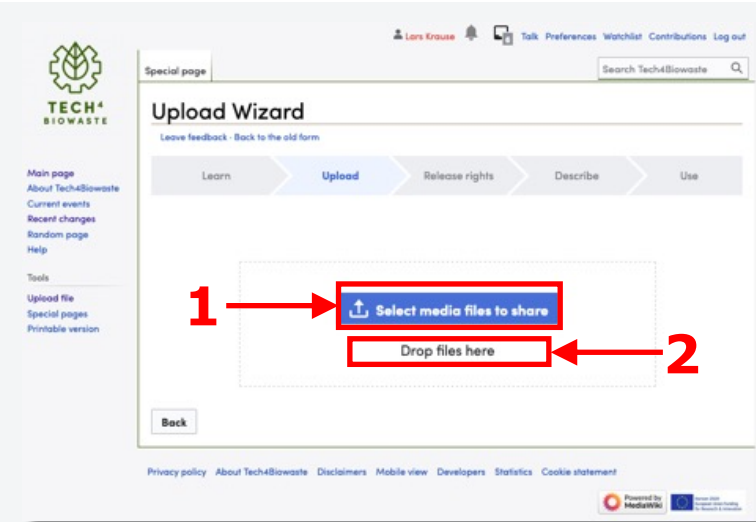

Add your company profile

Insert your company logo to the technology provider infobox

Either click on **(1) Select media files to share** to select the company logo from your file manager.

Or directly **(2) drag-and-drop** the file from your file manager into the Tech4Biowaste Upload Wizard.

Once you have successfully **(3) selected your Company logo** it will be displayed in the Upload Wizard. Now you can click on **(4) Continue**.

How to add your company profile

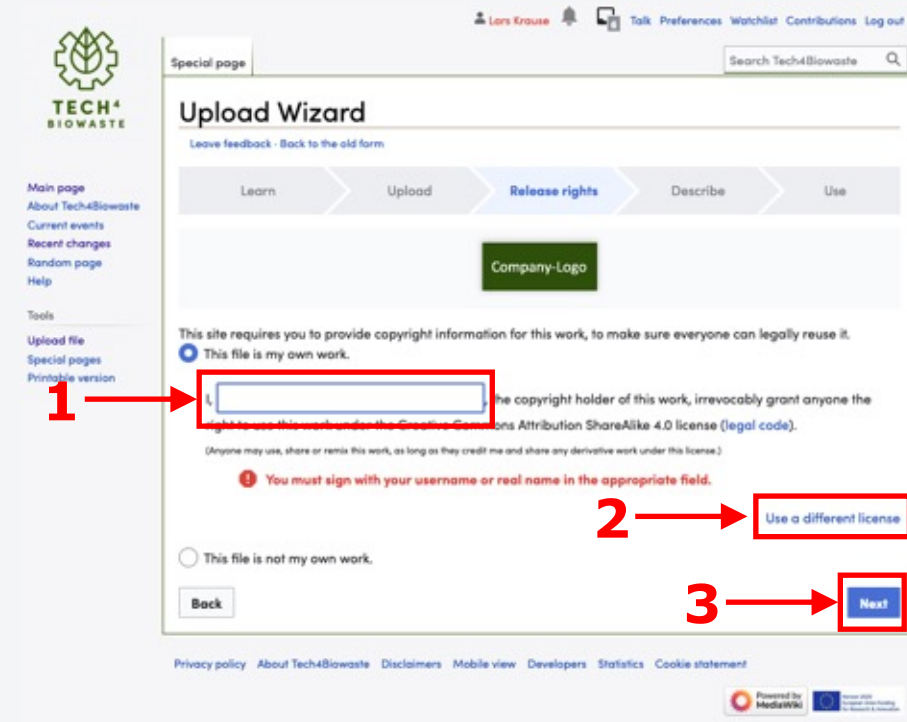

Add your company profile

Insert your company logo to the technology provider infobox

If the file is your work:

(1) type in your User name. Automatically the file will be used under the Creative Commons Attribution ShareAlike 4.0 license, if you want to select another licence you have to click on **(2) Use a different license** followed by selecting the suitable license.

Click on **(3) Next**.

The screenshot shows the 'Upload Wizard' page on the Tech4Biowaste website. The page has a sidebar with navigation links and a main content area. The main content area has a progress bar with steps: Learn, Upload, Release rights (current), Describe, and Use. Below the progress bar is a 'Company-Logo' button. The main text area says: 'This site requires you to provide copyright information for this work, to make sure everyone can legally reuse it.' There are two radio buttons: 'This file is my own work.' (selected) and 'This file is not my own work.' Below the first radio button is a text input field with a red box around it and a red arrow labeled '1' pointing to it. To the right of the input field is the text: 'the copyright holder of this work, irrevocably grant anyone the right to use this work under the Creative Commons Attribution ShareAlike 4.0 license (legal code).' Below this is a red warning icon and text: 'You must sign with your username or real name in the appropriate field.' To the right of this text is a red box around the 'Use a different license' button with a red arrow labeled '2' pointing to it. Below the 'Use a different license' button is a red box around the 'Next' button with a red arrow labeled '3' pointing to it. At the bottom left is a 'Back' button. The footer contains links for Privacy policy, About Tech4Biowaste, Disclaimers, Mobile view, Developers, Statistics, and Cookie statement, along with logos for Powered by MediaWiki and the European Union.

How to add your company profile

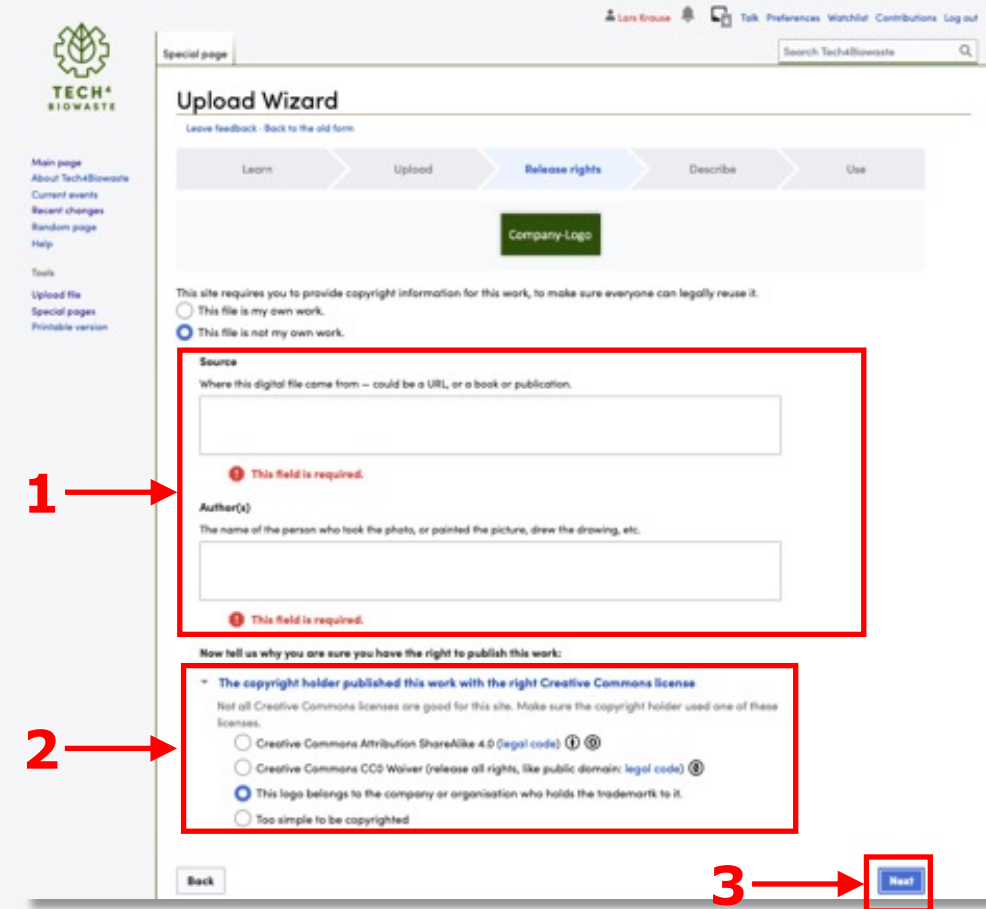

Add your company profile

Insert your company logo to the technology provider infobox

If the file is not your work:

(1) type in the Source and Author(s) of the Work followed by **(2) indicating the publishing license/rights** (e.g. "This logo belongs to the company or organisation who holds the trademark to it").

Click on **(3) Next**.

The screenshot shows the 'Upload Wizard' form on the Tech4Biowaste website. The form is divided into several sections. A red box labeled '1' highlights the 'Source' and 'Author(s)' fields, which are required. Another red box labeled '2' highlights the 'Now tell us why you are sure you have the right to publish this work:' section, specifically the option 'The copyright holder published this work with the right Creative Commons license'. A third red box labeled '3' points to the 'Next' button at the bottom right of the form.

How to add your company profile

Add your company profile

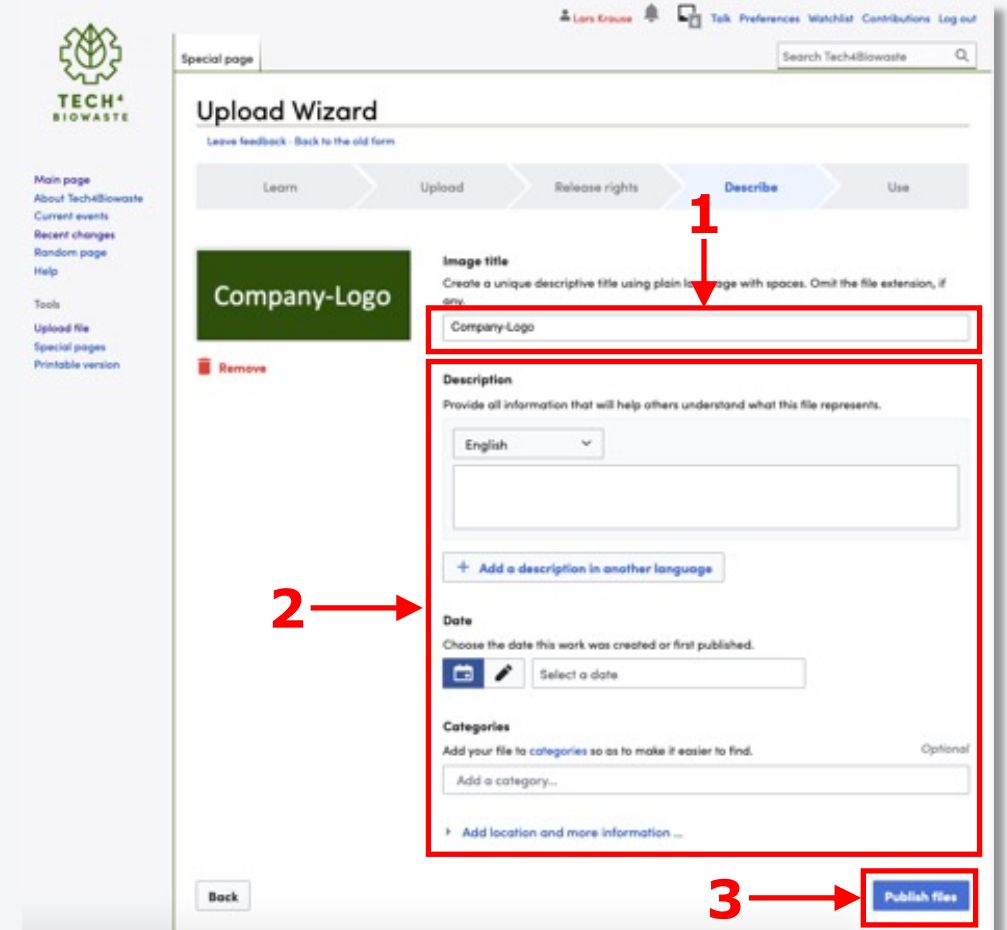

Insert your company logo to the technology provider infobox

After the release rights are specified the file description can be added.

(1) type in a unique **file name** for the company logo.

(2) type in additional required **Description** and **Date**.

Click on **(3) Publish files**.

The screenshot shows the 'Upload Wizard' interface for Tech4Biowaste. The 'Describe' step is active, indicated by a red arrow labeled '1' pointing to the 'Image title' input field. The input field contains 'Company-Logo'. Below it, the 'Description' section is highlighted with a red box and a red arrow labeled '2' pointing to it. The 'Description' section includes a language dropdown set to 'English', a text area for the description, and a button to 'Add a description in another language'. Below the description section, the 'Date' section is highlighted with a red box and a red arrow labeled '3' pointing to it. The 'Date' section includes a date picker and a 'Select a date' input field. At the bottom right, the 'Publish file' button is highlighted with a red box and a red arrow labeled '3' pointing to it.

How to add your company profile

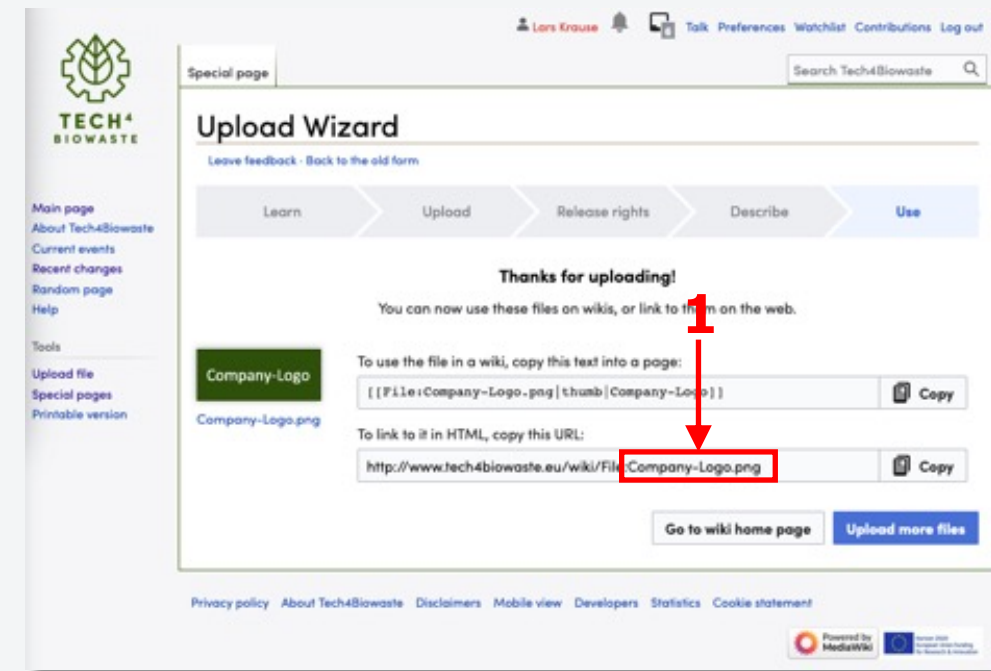

Add your company profile

Insert your company logo to the technology provider infobox

You now have successfully uploaded your company logo.

In the confirmation dialogue the **(1) full link** including the **filename** is displayed.

You need to **note the filename** (attention: case sensitive) for later implementation into the infobox.

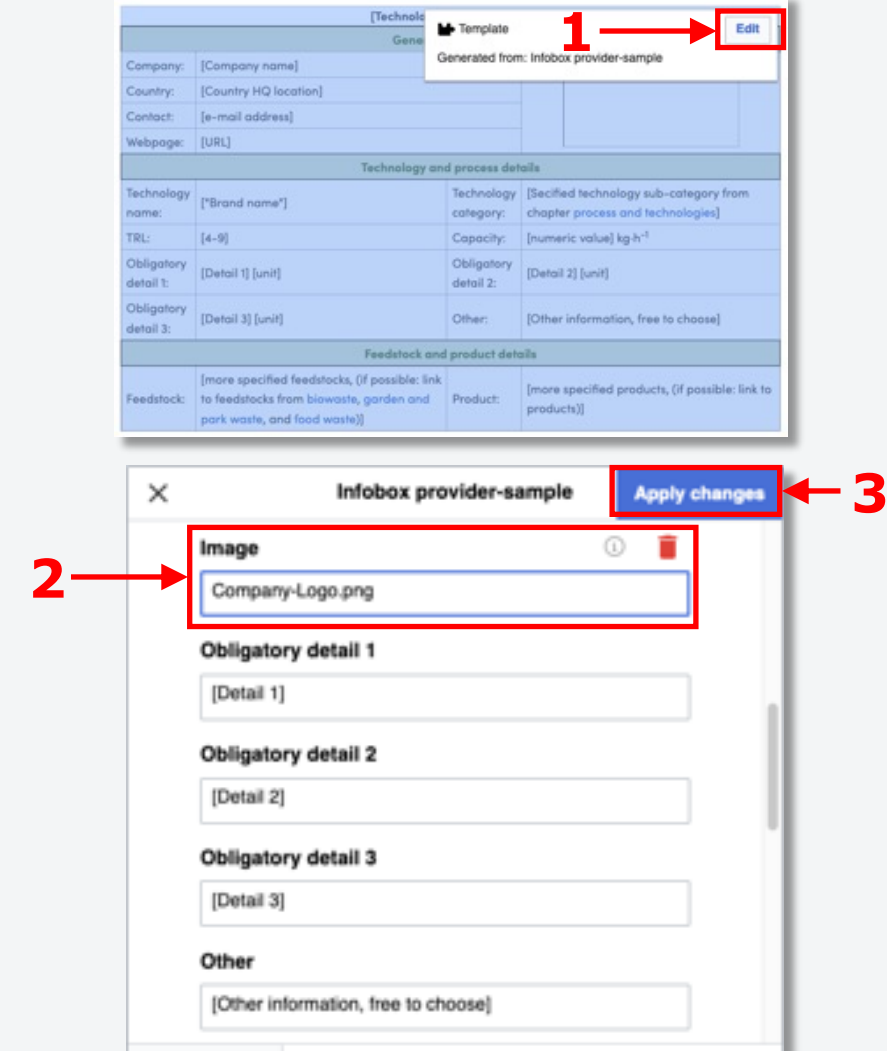

Add your company profile

Insert your company logo to the technology provider infobox

Edit the infobox (presumption: visual editor (WYSIWYG) is activated) by clicking on the infobox followed by clicking on the appearing **(1) "Edit"-button** at the top right of the infobox.

(2) Type in the file name of your uploaded company-logo (attention: case sensitive).

Click on **(3) Apply changes** once you have completed your modifications.

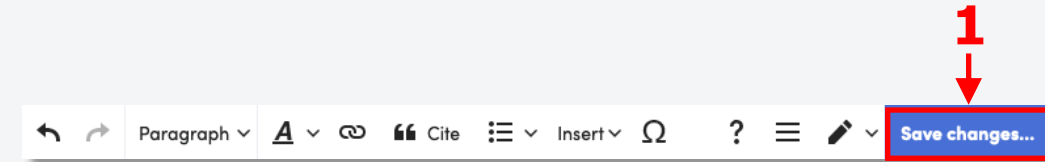

The screenshot shows the 'Infobox provider-sample' form. The 'Company' section has an 'Edit' button highlighted with a red box and labeled '1'. The 'Feedstock and product details' section has an 'Image' field highlighted with a red box and labeled '2'. The 'Apply changes' button in the top right corner of the 'Feedstock and product details' section is highlighted with a red box and labeled '3'.

How to add your company profile

Add your company profile

Insert your company logo to the technology provider infobox

After clicking on **(1) Save changes** in the toolbox your company-logo should now be **(2) displayed in the infobox**.

How to add your company profile

Add your technology to the technology comparison tool

Enter the visual edit-mode by clicking on the link

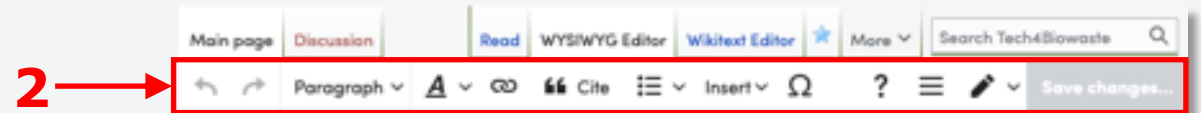

(1) “WYSIWYH edit” which you can find at the top of the section after the section-title “Technology providers”.

This will open the toolbox at the top frame of the wiki.

Toolbox

The **(2) toolbox** offers all important functions to visually edit and format the article.

How to add your company profile

Add your technology to the technology comparison tool

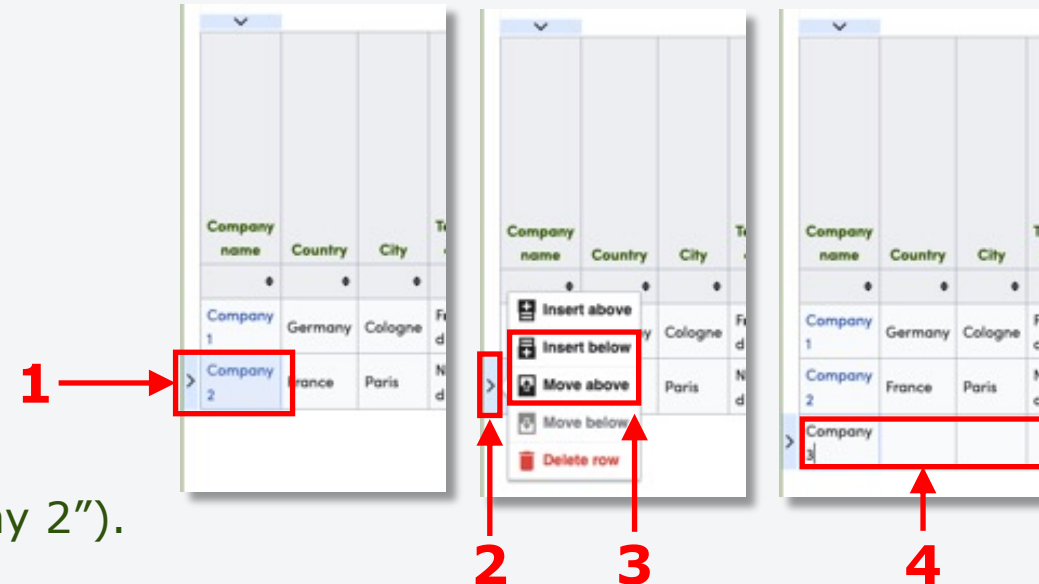

In the technology comparison tool the entries are sorted by company names in alphabetical order.

(1) Search and click in the line where you want to place your company (above or below, in this example: "Company 2").

On the left side of the line an arrow appears, **(2) click on the arrow**

A **(3) dialogue box** appears offering to

(4) insert a new line above or below the selected line (in this example it was inserted below) and type in the requested information.

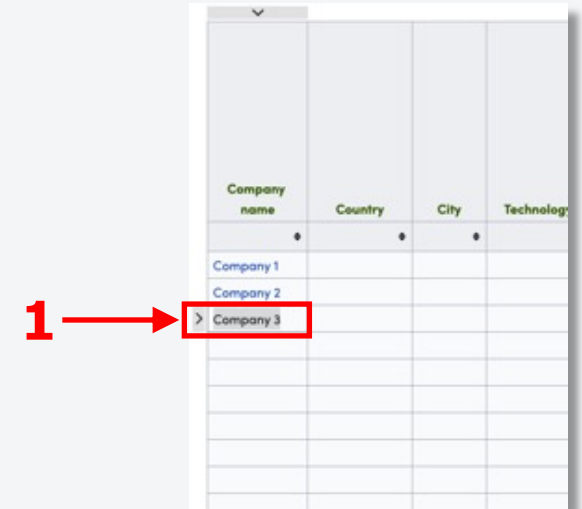

How to add your company profile

Add your technology to the technology comparison tool

Crosslink your company profile

Double-click into the cell with your company name and **(1) mark/highlight the company name.**

Company name	Country	City	Technology
Company 1			
Company 2			
Company 3			

(2) click on the link-tool which is located in the toolbox.

How to add your company profile

Add your technology to the technology comparison tool

Crosslink your company profile

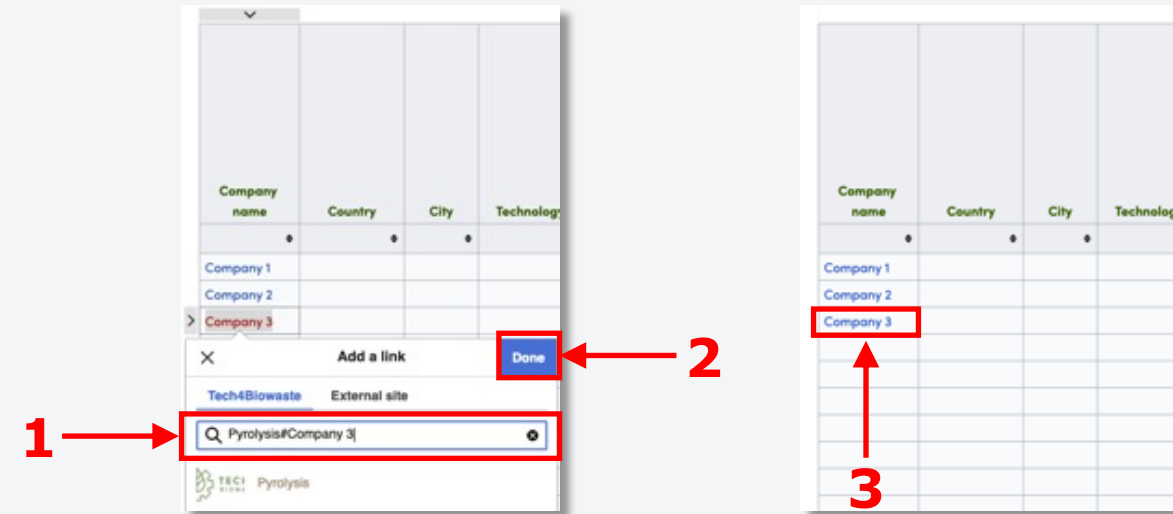

The “Add a link” dialogue-box appears.
In the search-field the **(1) crosslink to your company profile** can be added via following syntax (ATTENTION: case-sensitive):

Articlename#Companyname

After that **(2) click on “Done”**.

In the following example a crosslink is set up to the section with the company profile named “Company 3” in the technology article named “Pyrolysis”:

Pyrolysis#Company 3
